Portfolio: <https://portfolio.ekdvs.xyz/> | Github: <https://github.com/ekdvs>

PROFESSIONAL SUMMARY

Computer Science graduate and Software Engineer with hands on experience building and deploying production style full stack applications using NextJS, React, TypeScript, Node.js, NestJS, Spring Boot and modern database technologies. Experienced in shipping live features within Agile development cycles, optimizing backend APIs, integrating secure authentication and payment workflows, and supporting CI/CD driven deployments. Strong practical experience in MERN and Spring Boot development, REST APIs, JWT/OAuth, Docker, AWS and Azure, with growing expertise DevOps ,cloud infrastructure, CI/CD and containerization. Seeking Software Engineering, Full Stack, Backend Development or DevOps/Cloud opportunities where strong coding, systems thinking and deployment skills can contribute from day one.

PROFESSIONAL EXPERIENCE

Software Engineer Intern Aztra (Pvt) Ltd - Remote

Apr 2026 – Oct 2026

- Developed and shipped 4+ full-stack features for a production React and Spring Boot application within two week Agile sprint cycles.
- Improved the performance of 3 backend API endpoints through database query and business logic optimization, reducing average response time by approximately 20-30%.
- Contributed to CI/CD supported release cycles by performing testing, performance validation, bug fixing, and deployment readiness checks.
- Collaborated with a 5 person cross functional team to implement features, troubleshoot production issues, and continuously improve application functionality.
- Participated in Agile development practices including sprint planning, implementation, testing, code reviews, and issue resolution.

EDUCATION

- **Bachelor of Science in Physical Sciences - Major in Computer Science** 2021 - 2025
University of Kelaniya, Sri Lanka
- **Full Stack NEXT Development Program** 2026 - present
SKYREK (Pvt) Ltd, Sri Lanka
- **Full Stack MERN Development Program** 2025
SKYREK (Pvt) Ltd, Sri Lanka
- **Full Stack Developer Training Program** 2025
DP Education IT Campus & Coding School

CORE COMPETENCIES & SKILLS

- API Integration
- JWT/OAuth Authentication
- WebSockets
- Cloud Deployment
- Real Time Systems
- OOP
- DSA
- Responsive Web Design
- Microservices Architecture
- Database Design & Optimization
- CI/CD Pipeline Management
- Performance Optimization
- Agile Software Development
- System Design
- Debugging & Troubleshooting
- Secure Application Development

TECHNICAL SKILLS

- **Programming** - JavaScript, TypeScript, Java, Python, PHP, C, C#
- **Frontend** - React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend** - Node.js, Express.js, NestJS, Spring Boot, FastAPI, REST API Development, Socket.io, MVC Architecture
- **Databases** - MongoDB, MySQL, Microsoft SQL Server, PostgreSQL
- **Cloud & DevOps** - AWS, Azure, VPC, ECS Fargate, ECR, RDS, ALB, CloudFront, S3, IAM, CloudWatch, Docker, Terraform, GitHub Actions, CI/CD, Git, Vercel, Render
- **Security & Integration** - JWT, OAuth 2.0, API Integration, Payment Gateway Integration
- **Engineering** - OOP, DSA, MVC, Microservices, Database Design, API Design, System Design, Performance Optimization, Debugging

SELECTED PROJECT EXPERIENCE

Spring Boot AWS DevOps Platform — Production-Style Cloud Deployment 2026

Technologies: AWS, Spring Boot, React, Docker, Terraform, GitHub Actions, ECS Fargate, ECR, RDS MySQL, VPC, ALB, CloudFront, S3, CloudWatch, IAM, Prometheus, Grafana

- Built a production-style AWS environment for a containerized Spring Boot application using VPC, public/private subnets, NAT Gateway, Application Load Balancer, ECS Fargate, ECR, RDS MySQL and IAM.
- Automated application delivery with GitHub Actions, implementing build, test, Docker image creation, ECR publishing, ECS deployment and health-check workflows for development and production environments.
- Managed AWS infrastructure using Terraform, including networking, RDS, ALB, ECS, ECR, IAM and monitoring resources, with remote S3 state and separate development/production workspaces.
- Deployed a React frontend using S3 and CloudFront with Origin Access Control (OAC), HTTPS, caching, SPA routing, security headers and automated CloudFront invalidation.
- Implemented monitoring with Prometheus, Grafana and CloudWatch, including application metrics, dashboards, logs, alarms and ECS CPU-based auto scaling.

Ticket Booking System 2026

Technologies - React.js, TypeScript, Spring Boot, MongoDB, JWT, Google OAuth, Cloudinary, PayHere, Docker, Vercel, Render

- Built an end to end event ticketing platform with secure JWT and Google OAuth authentication across User, Organizer and Admin dashboards.
- Integrated PayHere payment processing with webhook handling and developed QR based ticket validation with automated PDF generation and Cloudinary storage.
- Containerized and deployed the backend using Docker on Render and deployed the frontend on Vercel, with real time booking notifications through WebSockets.
- **Live Demo:** [MyTickets — Book Events, Concerts & Movies in Sri Lanka](#)

Online Shopping Center Application 2025

Technologies - React.js, Node.js, Express.js, MongoDB, JWT, Socket.io, Cloud Deployment

- Built a MERN e commerce platform with secure authentication, cart management, order tracking and separate Admin/Customer dashboards.
- Implemented real time order status notifications using Socket.io and deployed the frontend on Vercel.
- **Live Demo:** [Home | ShopEase](#)

Computer Shop Web Application 2025

Technologies - React.js, Node.js, Express.js, MongoDB, Cloudinary, Supabase, PayHere

- Developed secure backend APIs for order and payment workflows, adding OTP and JWT authentication plus real time chat with media upload support.
- **Live Demo:** [i-computers-frontend](#)

Travel Planning Website - The Ceylon Traveler Technologies - React.js, Spring Boot, MongoDB

- Built a scalable travel booking application with REST APIs for package and booking management and integrated online payment functionality.
- **Live Demo:** [The Ceylon Traveler](#)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- KodeKloud Engineer - 100 Days of Cloud (AWS and Azure), KodeKloud - Jun 2026
- AWS Cloud Practitioner, Coursera - Successfully Completed
- CloudPath Pro - DevOps & Cloud Engineering Program, Learnfi - Completed (2026)
- Mastering CI/CD, Learnfi - Completed (2026)
- Docker for Absolute Beginners with Hands on Projects, CoDeKu DevOps Academy - (2026)
- Full Stack Developer Course, DP Education IT Campus & Coding School - Successfully Completed
- Java Programming Certification, Simplilearn - Successfully Completed

EXTRACURRICULAR ACTIVITIES

- Mathematics Student Society, University of Kelaniya
- Participant - Hackathons & Competitive Coding Events
- Volunteer - University Technical Symposiums & Academic Events

LANGUAGES

- English - Professional Proficiency
- Sinhala - Native
