TECHNICAL SKILLS

Programming Languages:

JavaScript, TypeScript, Java, Python, PHP, C, C#

Frontend Technologies:

React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Technologies:

Node.js, Express.js, Spring Boot, FastAPI, REST API Development, Socket.io, MVC Architecture

Databases:

PostgreSQL (Basic)

DevOps & Development Tools:

Postman, Figma (UI/UX Basics)

Core Technical Competencies:

WebSockets, Cloud Deployment, Real-Time Systems, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Responsive Web Design, CI/CD Concepts

VISHWA SAMPATH

Computer Science Graduate
Full Stack Developer Intern (MERN | Spring Boot)

PROFESSIONAL PROFILE

Full-stack developer with hands-on experience across 6+ production-style MERN and Spring Boot applications, plus a 3-month internship shipping live features in an Agile team. Comfortable across React/TypeScript, Node.js/Express, Spring Boot, MongoDB/PostgreSQL, JWT/OAuth, and Docker deployments on Vercel/Render/AWS. Seeking a Software Engineering or Full-Stack Developer internship to ship production-quality code from day one

EDUCATIONAL QUALIFICATIONS

Bachelor of Science in Physical Sciences (major in Computer Science)

University of Kelaniya, Kelaniya, Sri Lanka

2021 - 2025 | Successfully Completed - GPA: 3.13 / 4.00

Majors:

- Computer Science
- Pure Mathematics
- Chemistry

PROFESSIONAL QUALIFICATIONS

Software Engineer Intern

Aztra (Pvt) Ltd | Remote

Apr 2026 – Present

- Shipped 4+ full-stack features across a production React and Spring Boot application within a 2-week Agile sprint cycle, collaborating daily with a 5-person cross-functional team..
- Collaborating with cross-functional teams in Agile development environments.
- Optimized 3 backend API endpoints, cutting average response time by an estimated 20–30% through query and logic refactoring.
- Contributed to CI/CD-backed release cycles, participating in testing and performance checks before each production deployment

PROFESSIONAL QUALIFICATIONS

Software Engineering & Development

Full Stack Developer Training Program

DP Education IT Campus & Coding School, Sri Lanka

2024 - Present | Following

Full Stack MERN Development Program

SKYREK (Pvt) Ltd. Sri Lanka

2025 | Successfully Completed

PROJECT EXPERIENCE

Ticket Booking System (2026)

Technologies: React.js, TypeScript, Spring Boot, MongoDB, JWT, Cloudinary, PayHere, Docker, Vercel, Render

- Built a full-stack event ticketing platform end-to-end, implementing JWT + Google OAuth authentication across 3 distinct role-based dashboards (User, Organizer, Admin)..
- Integrated the PayHere payment gateway with webhook handling, enabling secure end-to-end transaction processing for ticket purchases.
- Designed a QR-based ticket validation system with automated PDF generation and Cloudinary storage, cutting manual entry-check time to seconds per attendee.
- Deployed a containerized backend (Docker on Render) and frontend (Vercel), supporting real-time booking notifications via WebSockets.
- Deployed frontend on Vercel and backend on Render using Docker.

• Live Demo: <https://project-qt6jb.vercel.app/>

EXTRACURRICULAR ACTIVITIES

- **Member** - Mathematics Student Society, University of Kelaniya, Sri Lanka
- **Participant** - Hackathons and Competitive Coding Events
- **Volunteer** - University Technical Symposiums and Academic Events

SOFT SKILLS

- Problem Solving & Analytical Thinking
- Team Collaboration & Communication
- Adaptability & Continuous Learning
- Time Management & Task Prioritization
- Self-Motivation & Professional Discipline

PERSONAL DETAILS

Nationality: Sri Lankan

Availability: Immediate

Languages:

- **Sinhala** - Native
- **English** - Professional Working Proficiency

Online Shopping Center Application (2025)

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, Socket.io, Cloud Deployment

- Built a full MERN e-commerce platform with secure authentication, cart management, and order tracking across separate admin and customer dashboards..
- Implemented real-time order-status notifications with Socket.io, eliminating the need for manual status polling. Designed admin and customer role-based dashboards.
- Deployed frontend on Vercel.
- Live Demo: <https://online-shopping-frontendzeta.vercel.app/>

Computer Shop Web Application (2025)

Technologies: React.js, Node.js, Express.js, MongoDB, Cloudinary, Supabase, PayHere Integration

- Developed secure backend APIs for orders and payments, adding OTP + JWT authentication and real-time chat with media upload support.
- Live Demo: <https://computer.ekdvs.xyz/>

Travel Planning Website - The Ceylon Traveler

Technologies: React.js, Spring Boot, MongoDB

- Built a scalable travel booking system with REST APIs for package/booking management
- Integrated online payment gateway.
- Implemented REST APIs for package and booking management.
- Live Demo: <https://ceylon-travelernetlifyapp.vercel.app/>

Wedding Planning Website - Emerald Weddings

Technologies: PHP, MySQL, HTML, CSS, JavaScript

- booking system with automated PHPMailer email notifications.
- Live Demo: <https://weddingplaning.rf.gd/>

Weather Forecast Web Application

Technologies: React.js, TypeScript, OpenWeather API

- Developed real-time weather application.
- Integrated REST APIs and real-time forecasting UI.
- Live Demo: <https://wearther-app-three.vercel.app/>

Rent-a-Car Management System (2024)

Technologies: C#, .NET Framework, SQL Server

- Designed desktop-based rental management system.
- Implemented vehicle tracking and customer management modules.

CERTIFICATIONS

KodeKloud Engineer – 100 Days of Cloud (AWS and Azure) KodeKloud | Jun 2026

AWS Cloud Practitioner - Coursera | Successfully Completed

CloudPath Pro – DevOps & Cloud Engineering Program – Learnfi | In Progress (2026)

Full Stack Developer Course - DP Education IT Campus & Coding School | Successfully Completed

Java Programming Certification - Simplilearn | Successfully Completed
