TECHNICAL SKILLS

Programming Languages:

JavaScript, TypeScript, Java, Python, PHP, C, C#

Frontend Technologies:

React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Technologies:

Node.js, Express.js, Spring Boot, FastAPI, REST API Development, Socket.io, MVC Architecture

Databases:

PostgreSQL (Basic)

DevOps & Development Tools:

Postman, Figma (UI/UX Basics)

Core Technical Competencies:

WebSockets, Cloud Deployment, Real-Time Systems, Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Responsive Web Design, CI/CD Concepts

VISHWA SAMPATH

Software Engineering Graduate
Full Stack Developer Intern (MERN | Spring Boot)

PROFESSIONAL PROFILE

Motivated and detail-oriented graduate in Computer Science with hands-on experience in full-stack web development, seeking a Software Engineering / Full-Stack Development internship. Eager to apply strong skills in MERN stack development, RESTful APIs, cloud deployment, and problem-solving to real-world projects while gaining industry exposure. Committed to continuous learning, teamwork, and contributing effectively to innovative software solutions within a professional development environment.

EDUCATIONAL QUALIFICATIONS

Bachelor of Science in Physical Sciences (major in Computer Science)

University of Kelaniya, Kelaniya, Sri Lanka

2021 - 2025 | Successfully Completed - GPA: 3.13 / 4.00

Majors:

- Computer Science
- Pure Mathematics
- Chemistry

PROFESSIONAL QUALIFICATIONS

Software Engineer Intern

Aztra (Pvt) Ltd | Remote

Apr 2026 – Present

- Developing and maintaining full-stack web applications using modern frontend and backend technologies.
- Collaborating with cross-functional teams in Agile development environments.
- Participating in code reviews, debugging, testing, and performance optimization.
- Contributing to production-level features and software enhancements.

PROFESSIONAL QUALIFICATIONS

Software Engineering & Development

Full Stack Developer Training Program

DP Education IT Campus & Coding School, Sri Lanka

2023 - Present | Following

Full Stack MERN Development Program

SKYREK (Pvt) Ltd. Sri Lanka

2025 | Successfully Completed

PROJECT EXPERIENCE

Ticket Booking System (2026)

Technologies: React.js, TypeScript, Spring Boot, MongoDB, JWT, Cloudinary, PayHere, Docker, Vercel, Render

- Developed a full-stack event ticket booking platform with **secure JWT authentication and Google OAuth login**.
- Implemented **role-based dashboards (User, Organizer, Admin)** with separate workflows and analytics.
- Integrated **PayHere payment gateway** with webhook handling for secure transaction processing.
- Built **QR-based ticket validation system** with PDF ticket generation and Cloudinary storage.
- Designed **event management system** with search, filtering, and calendar view.
- Implemented **real-time notifications system** and booking management features.
- Deployed frontend on Vercel and backend on Render using Docker.
- Live Demo: <https://project-qt6jb.vercel.app/>

EXTRACURRICULAR ACTIVITIES

- **Member** - Mathematics Student Society, University of Kelaniya, Sri Lanka
- **Participant** - Hackathons and Competitive Coding Events
- **Volunteer** - University Technical Symposiums and Academic Events

SOFT SKILLS

- Problem Solving & Analytical Thinking
- Team Collaboration & Communication
- Adaptability & Continuous Learning
- Time Management & Task Prioritization
- Self-Motivation & Professional Discipline

PERSONAL DETAILS

Nationality: Sri Lankan

Availability: Immediate

Languages:

- **Sinhala** - Native
- **English** - Professional Working Proficiency

Online Shopping Center Application (2025)

Technologies: React.js, Node.js, Express.js, MongoDB, JWT, Socket.io, Cloud Deployment

- Developed a complete MERN-based e-commerce platform with secure authentication.
- Implemented real-time order notifications using Socket.io.
- Designed admin and customer role-based dashboards.
- Integrated cart management, order tracking, and payment processing.
- Deployed frontend on Vercel.
- Live Demo: <https://online-shopping-frontendzeta.vercel.app/>

Computer Shop Web Application (2025)

Technologies: React.js, Node.js, Express.js, MongoDB, Cloudinary, Supabase, PayHere Integration

- Built responsive UI using React and Vite.
- Developed secure backend APIs for orders and payments.
- Integrated OTP and JWT authentication.
- Implemented real-time chat and media upload features.
- Live Demo: <https://computer.ekdvs.xyz/>

Travel Planning Website - The Ceylon Traveler

Technologies: React.js, Spring Boot, MongoDB

- Developed a scalable travel booking system.
- Integrated online payment gateway.
- Implemented REST APIs for package and booking management.
- Live Demo: <https://ceylon-travelernetlifyapp.vercel.app/>

Wedding Planning Website - Emerald Weddings

Technologies: PHP, MySQL, HTML, CSS, JavaScript

- Built booking system with automated email notifications.
- Integrated PHPMailer for customer communication.
- Live Demo: <https://weddingplaning.rf.gd/>

Weather Forecast Web Application

Technologies: React.js, TypeScript, OpenWeather API

- Developed real-time weather application.
- Integrated REST APIs and responsive UI design.
- Live Demo: <https://wearther-app-three.vercel.app/>

Rent-a-Car Management System (2024)

Technologies: C#, .NET Framework, SQL Server

- Designed desktop-based rental management system.
- Implemented vehicle tracking and customer management modules.

CERTIFICATIONS

KodeKloud Engineer – 100 Days of Cloud (AWS) | KodeKloud | Jun 2026

AWS Cloud Practitioner - Coursera | Successfully Completed

CloudPath Pro – DevOps & Cloud Engineering Program – Learnfi | In Progress (2026)

Full Stack Developer Course - DP Education IT Campus & Coding School | Successfully Completed

Java Programming Certification - Simplilearn | Successfully Completed
